The Academy of Fine Arts Bologna do not have special housing services or reserved places in the University Residences for the exchange students.

It's not easy to find flats, rooms and student residences in Bologna for exchange students.

Looking for an accommodation in advance, it's important. In the private market it can take time, so **we advise you to arrive in Bologna one or two weeks before the start of the lessons.**

These information could be useful to help you to find your room in Bologna.

- If you are looking for a Student Residence in Bologna, there are some private solutions. Mind they are quite expensive for the services offered in addition to the room.

- Nuovo Mondo <https://www.nuovomondo.it/>

- If you want to look for accommodation independently, in the private rental market, we can give you some tips:

The best solution in relation to the price is to look for an apartment, rented by private individuals, and shared with other students. You can look for a "stanza singola", an individual room for only one student, the average cost is around 600/700 euros excluding utilities; if you choose a "stanza doppia", a room shared with another student, the average cost is around 300/400 euros excluding utilities. The rental for a full academic year is easier than to find a place for a semester only.

In many announcements you will find specified that the apartment is "dentro le mura", literally "inside the walls" that means "in the city center", or "fuori mura" - "outside the walls"- that means the apartment is in the suburbs. The apartments "fuori mura" are generally cheaper, but for moving you may need a bus pass or a bicycle.

To ask the service of house agencies is very expensive.

Useful web pages to search a room are:

<https://bologna.bakeca.it>

www.roomgo.it

In many facebook groups it's possible to find some offers.

ATTENTION (for the private rental market):

We suggest never pay for the rental online before you actually see the room (not even for deposit). It could be a fraud! It's better to spend one or two weeks in a Hostel or Air B'n'B and take your time to choose your accommodation.
